Subject: The City of Leesburg, Florida
New Transformer for Center Substation

Dear Mr. Thornton:

Per Mr. Dave Thomas' request, Booth & Associates, Inc. has evaluated the bid proposals for the new transformer for the Center Substation. It should be noted that Virginia Transformer is not on our approved bidders list. CG Power's proposal meets the technical requirements and is an approved manufacturer. It is our recommendation that the City of Leesburg accept CG Power's offer to manufacture the new unit for Center Substation.

Very truly yours,

BOOTH & ASSOCIATES, INC.
