Ken.Thomas@leesburgflorida.gov

We invite you to join the City of Leesburg City Commission and the Carver Heights/Montclair CRA Board to celebrate the ground breaking for the Leesburg Resource Center.

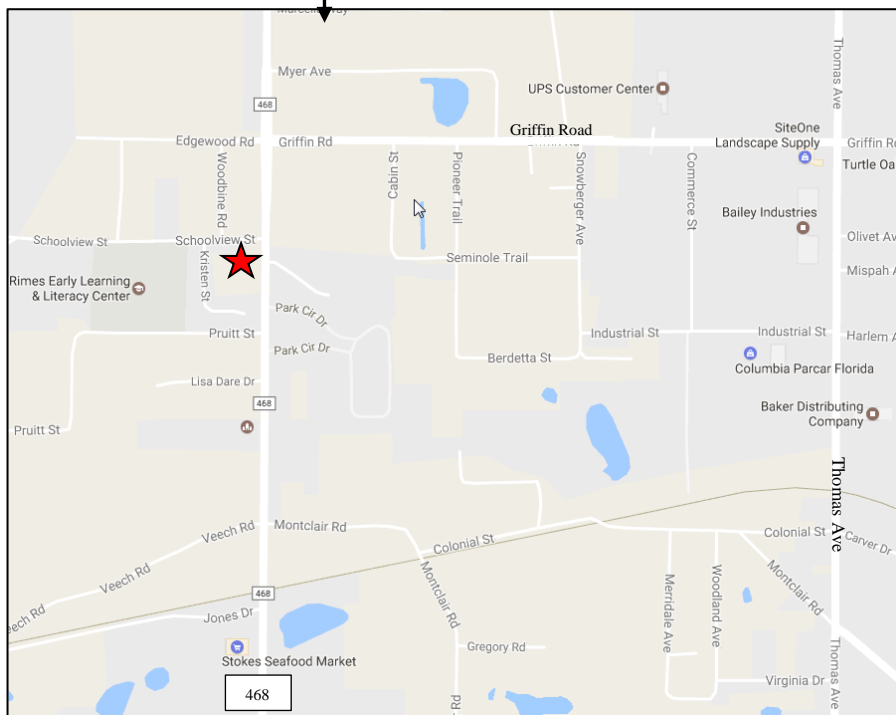

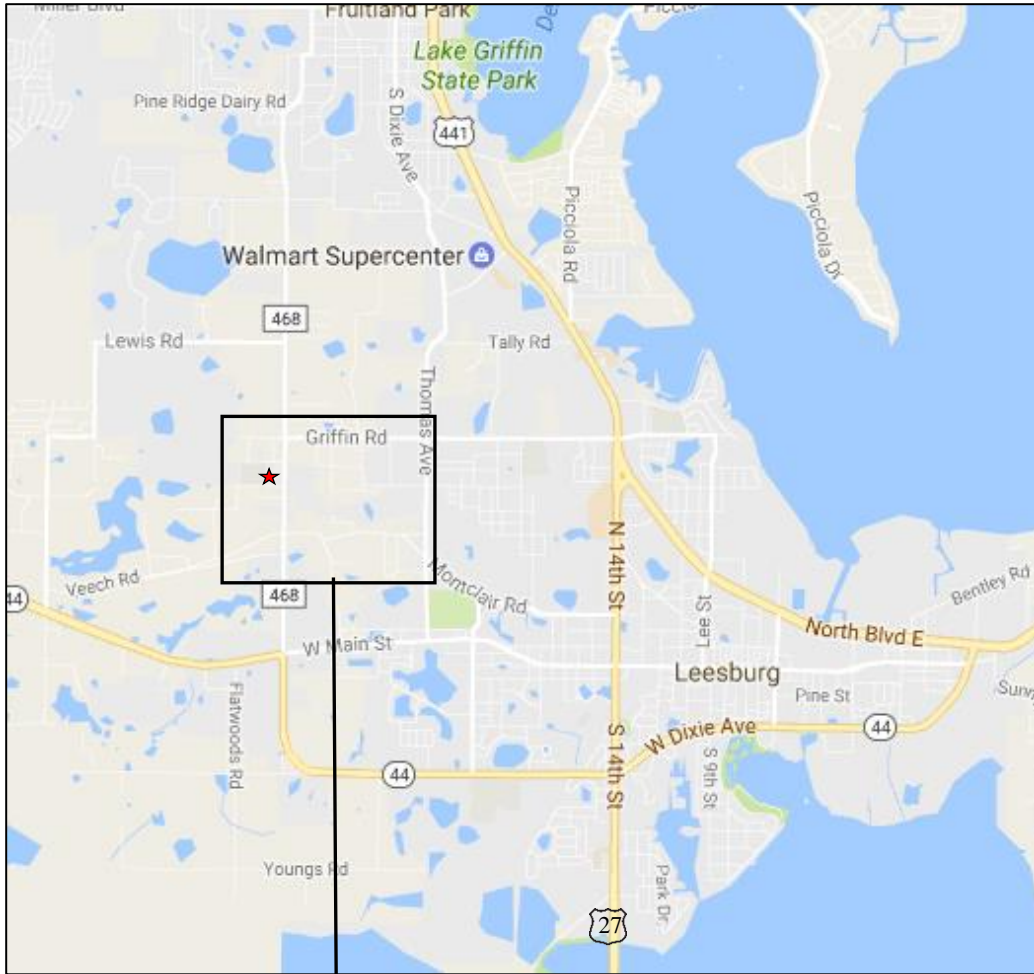

The Leesburg Resource Center is a multi-purpose facility that will include meeting rooms, computer training space, kitchen café, resource offices and a central meeting hall.

Through partnerships with non-profit organizations, government agencies, churches and civic groups the Center will provide a family-friendly and accessible place to offer services and activities to increase the education and employability skills of our residents. The venue will also be available for use as a banquet hall for celebrations.

The Leesburg Resource Center has been made possible by funding from the City of Leesburg, Lake County, USDA and the Carver Heights/Montclair CRA totaling an investment in the community of \$2.3 million.

Construction will begin May 2017 with an anticipated opening of December 1, 2017.

For GPS purposes, the following address can be used.

**3003 Schoolview Street
Leesburg, FL 34748.**

Please look for “Ground Breaking” signs.
